

AMP Sport, an athlete management platform developed in conjunction with the High Performance Department at the U.S. Ski Team, is now available to USSA Member Clubs!

AMP Sport improves communication, promotes collaboration and helps you effectively track the training and wellness of your athletes. With AMP Sport you will be able to design on-hill and dryland workouts, monitor your teams' progress and provide valuable feedback to athletes and parents. Access activities library, evaluation templates and educational resources from USSA!

Member Clubs will also have access to USSA's new SkillsQuest scoring platform with profiles and scores that integrate directly with AMP Sport.

AMP Sport offers the ability for club sponsors to advertise within the platform to offset or completely cover costs.

Pricing starts at just \$30 per user per year!
