

AMP Sport, is an athlete management platform developed in conjunction with the High Performance Department at the U.S. Ski Team, is available to USSA Member Clubs!!

AMP Sport improves communication, promotes collaboration and helps you effectively track the training and wellness of your athletes. With AMP Sport you will be able to design on-hill and dryland workouts, monitor your teams' progress and provide valuable feedback to athletes and parents. Access activities library, evaluation templates and educational resources from USSA!

Member Clubs will also have access to USSA's SkillsQuest scoring platform with profiles and scores that integrate directly with AMP Sport.

AMP Sport offers the ability for club sponsors to advertise within the platform to offset or completely cover costs.

AMP Feature and Pricing

Communication

Athlete Logs

Keep everyone on the team in sync with what's happening with an athlete's training, nutrition, injuries and rehab, with 100% privacy within the coaching staff.

Activity Summaries

Review a timeline of what's happening with your athletes every time you log in.

Video Sharing

Upload to AMP to educate, comment, and correct your athletes' technique, includes an iOS app for quick upload and sharing.

Unlimited

Daily Email Summaries

Everything that happened in your organization, direct to your inbox every day.

Education Center

Easily share content on emergency plans, nutrition, recovery, scouting reports, and more.

Evaluations

Create custom evaluations and track your player development throughout the year.

Calendar Integration

Integrate with Google, Apple iCal, and Tripit (ics) calendars to see where athletes are at any given time - great for USADA & WADA compliance!

Athlete Profiles

All the information for your athlete in one place. Evaluations, test results, performance data, and documents stay with the athlete for their entire career. Extended profiles also include frequent traveler information, agent/sponsor management, and custom profile configuration.

Extended

Performance & Monitoring

Wellness Monitoring

Automatic alerts on your athletes' physical and psychological well-being with an easy, 3 step questionnaire reported from their iOS devices every morning.

Site Analytics

Get a quick overview on who is using your site and how to help drive adoption.

Injury Tracking

Keep a history of injuries, treatments, and expected return to play right at your fingertips.

Performance Tracking

Track performance metrics and test results.

Load Management

Create, assign, and manage activities and workout sessions to track training and competition loads.

Advanced Data Integration

Integrate with external providers like Visual Coaching and BioForce or import csv to map results to your athlete.

Security

Secure by Default

SSL/HTTPS support out of the box.

Granular Permissions

Role based access to athletes and their data means that you can grant and remove access to certain functionality when you need it.

Private Clusters

Worried about the competition? Put your data on dedicated machines and networks in a data center near you.

Support & Training

Email Support

We promise to respond as fast as humanly possible!

24/365

Help & Support Center

24/7 access to HOWTO's, video demonstrations, and tutorials on how to get the most out of AMP.

1-on-1 Training

Get the best out of your investment with hands on training & ramp-up customized for your sport.

In person or online

Icing, Meet Cake

Automatic Updates

We handle updates, uptime and data backups, while you sit back and get new features delivered to your door.

Mobile Friendly

AMP® is optimized for use on the mobile devices and has offline capable iOS apps for recording key data on the slopes or in the air.

Cloud Based

Your data, when you want it, where you want it.

Custom Domain

Keep your identity inline with a custom domain at <myclub>.ampsport.com

Data Migration

Send us the good, the bad, and the ugly and we'll do our best to get your athlete data into our system to schedule a demo and get all the details.

“ AMP helped us to develop coaches. With 21 coaches and almost 180 kids spread over four mountains, consistency between the coaches has always been challenging. AMP allowed me to not only assign exercises and drills to the coaches so all mountains had the same general focus, it also allowed me to build a macro progression for the season in order to help teach the coaches how to pace skill development. Very exciting. ”

Team Summit

“ AMP allows us to manage and display all of our player information, saving time that can be dedicated to advancing player development and other processes. ”

Jason Lappin
Performance Development Manager
North Melbourne Kangaroos

Collaborating with elite athletic organizations since 2010, our partners include:
