

Dear Athlete,

We would like to invite you to the U.S. Ski Team's Elite Aerial Development Program (EADP) Talent ID Camp from July 9 to July 14, 2017 in Lake Placid, NY.

This camp was created by the U.S. Ski Team and the EADP Freestyle program to recruit athletes with acrobatic experience to the sport of aerial skiing. Sponsored by the US Olympic Committee, the EADP program is the primary program that feeds the U.S. Ski Team which fields the US Olympic team every four years.

This summer we are offering this training camp at a rate of \$500, which includes coaching, lodging and meals for athletes with skills in one of the following sports: gymnastics, trampoline, power tumbling, diving and skiing. Our coaches are looking for athletes between the ages of 12-18 with Olympic dreams and a strong desire to compete in the sport of aerials. No prior skiing experience is necessary, but it is a bonus. During this camp, you will be working with U.S. Ski Team and development team coaches as well as world class athletes and Olympians.

If you would like to attend, please submit an application with the following information:

- a) Hometown
- b) Previous athletic experience
- c) Current skill level

If you are not able to attend the dates listed above, please feel free to be in touch about other tryout opportunities including an additional camp in Park City, Utah.

Please email me with any questions and remember that space is limited, so please reply by June 10, 2017!

Sincerely,

Jaroslav Novak  
Head Aerial Coach, EADP East
